

In re Application of: Ariel PELED et al.
Serial No.: 10/003,269
Filed: December 6, 2001
Office Action Mailing Date: February 20, 2008

Examiner: Christopher J. BROWN
Group Art Unit: 2134
Attorney Docket: 01/22067

REMARKS

Claims 1–128 are pending in the Application. Claim 1, 69, 109, 110, and 125–128 are currently amended. New claims 129–143 are added herewith.

The Application now comprises, after amendments, claims 1–143, of which claims 1, 69, 109, 110, 125–127, 129, 131–134, and 141–143 are in independent form.

Claim 1 has been amended to include the feature that the confidence level, which is incremented by each signature match, is used to select three different levels of action. Such is not taught in the prior art.

The same amendment has been made to each other pending independent claim except for claim 69, and these claims are thus believed to be allowable for the same reasons.

Claim 69 was amended to overcome an issue of antecedent basis. It is believed to be allowable for the reasons given in the previously filed response to Office Action.

The dependent claims are believed to be allowable as being dependent on allowable main claims. The rejections against these claims are thus not argued separately.

All of the matters raised by the Examiner have been dealt with and are believed to have been overcome.

New claims 129–143 are added to further denote inventive features of the present application. No new matter is added by these amendments.

In view of the foregoing, it is respectfully submitted that all the claims now pending in the application are allowable. An early Notice of Allowance is therefore respectfully requested.

Respectfully submitted,
